

Bank Employee Journey Map

Bank Employee

BANK EMPLOYEE'S EXPERIENCIA

The persona wakes up.

She does her yoga session and gets ready for work.

When she gets to work, she goes to her desk and switches on her computer.

Unlocks the computer with her access code.

Reads new messages and informations from the manager and coworkers about loan cases.

She sends important update informations to clients and clarifies doubts.

She accesses to the in-house bank application where she is going to see the interviews that is going to conduct and the respective schedules.

She confirms the daily interview schedule and informations about them.

Analyses the documents and all the relevant information provided by the customers that she will be receiving.

Writes down the credit score and the amount requested from each customer she will be receiving.

Notifies the client to remind them of the interview.

Does the interview.

After the interview, she analyzes the information that was registered in the bank application and makes the decision according to the gathered data.

She registers her decision about the loan in the application. The client can then be notified about the decision.

Notifies the bank that the interview has taken place and that the loan has been accepted.

Sends feedback and reports to the bank about the interview.
